

USB 3.0 7-Port Hub

UH700

Features

Designed to Charge Fast

- UH700 can deliver up to 5V/1.5A output that charges 50% faster and saves up to 30% on charging time*. Fully charging a Galaxy S6 edge takes just 100 minutes with the UH700 USB Hub, whereas it takes 150 minutes with a USB Hub supporting 5V/1A output.*

*Exact charging time may vary and is subject to actual charging situations.

Protect Both Your Devices and Precious Data

- UH700 has a sophisticated circuit design with multiple protections for your devices against over-heating, over-current, over-voltage and short circuit. A built-in surge protector keeps both your devices and data safe in the process of transferring data. UH700 support USB ports hot swapping that can be safely connected and disconnected while the computer is powered on and running.

10x Data Transfer Speed

- Equipped with USB 3.0 ports, the UH700 can transfer a 1080p movie under 2 minutes 18 seconds, whereas it takes 7 minutes 36 seconds with a USB Hub equipped with USB 2.0 ports.*

*The actual transmission speed depends on the setting of the device connected.

Considerate Design

- A dim white LED indicator on the power button helps visualize the connection status and similarly, 7 dim white LED indicators beyond each USB port also indicate whether the devices are properly connected.

Increase the Number of Available Ports

- The UH700 is perfect for anyone who has a computer with only one or two USB ports, and wants easier access to additional ports without having to switch between devices.

* Many laptops have only one or two USB ports

* Many computers have USB ports in difficult-to-reach locations
